GATEWAY BETWEEN THE OLD AND NEW

Tradition meets modern values at the A971 Café, a restaurant-cum-bar concept originating from Tokyo and named after the address of its original location in 'Tokyo Midtown'. This joint venture between Select Group's subsidiary brand, Select Café Pte Ltd, and Café Company Inc., sees the newly-opened contemporary Tokyo dining establishment also cater to the drinking crowd. Not only are sakes being served in their traditional wooden sake-serving cup known as masu, one can also expect innovative sake cocktails. 'In the last five to ten years, the younger Japanese have taken an interest in Japanese sakes. With their Western lifestyle, they are able to enjoy both styles of drinks,' reveals Shujiro Kusumoto, CEO and President of the Café Company Inc. His favourite sake cocktails there include the Okinawa Sunrise (awamori, orange juice, grenadine) and Roppongi Sling (sake, cherry brandy, pineapple juice and soda) – perfect for ladies as it is 'sweet and fruity'. Other signature cocktails include the Winter In Okinawa, Kyoto Hopper, Japanese Glass Slipper and the A971 Lychee Martini.
